Sidney Powell: Smartmatic, Dominion Stole Millions of Votes from Trump - Smartmatic is a Crown Jewel of the British Empire

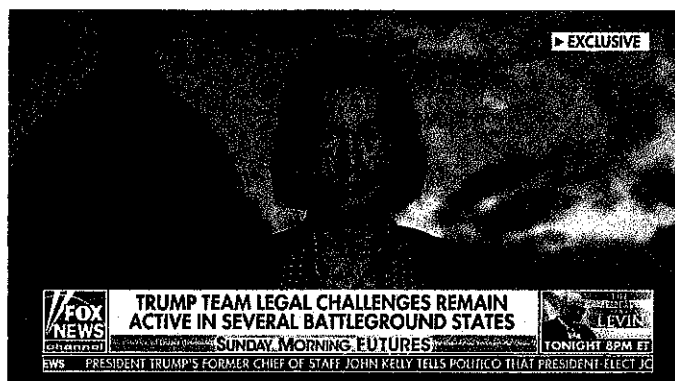

November 16, 2020

Sidney Powell, a leading member of President Trump's legal team, appeared on Maria Bartiromo's Fox News show Sunday, November 15, 2020.

Sidney Powell, a leading member of President Trump's legal team, appeared on Maria Bartiromo's Fox News show Sunday, updating the actual state of the battle. Powell said that she has documented proof that Donald Trump "won the election, not by thousands of votes, but by millions of votes that were shifted by the Smartmatic software, which was designed explicitly for that purpose.... We have sworn testimony from a whistleblower," she said, who "saw it used in other countries" and in the U.S. Not only did the Dominion voting machines use Smartmatic software, she said, but so also did other voting machine companies as well. She also noted that "we are on the cusp of a new American revolution" based on the corruption the President's investigation will reveal and the demands of the citizenry to finally drain the swamp.

Powell noted that "I never say anything I can't prove," something which has been demonstrated in spades in her work uncovering and documenting the frame-up of her client Lt. Gen. Michael Flynn and Mueller prosecutor Andrew Weissmann's illegalities in the Enron prosecutions.

Powell identified Adm. Peter Neffenger (ret.) of the Atlantic Council as the president of Smartmatic, Neffenger is now on Biden's transition team. Powell said that anyone who took the time to read Smartmatic's own manual would see that "they explain how votes can be wiped away, like drag and drop votes to a separate folder and then delete that folder. It's absolutely brazen how people bought these systems. Every state official that bought Dominion machines should have a serious investigation.... We have evidence of kickbacks

..., what I would call ‘election insurance,’ because they know they can win if they use that software.”

Our research shows that Smartmatic’s Chairman is Lord Mark Malloch-Brown, George Soros’s partner in crime. He serves on Open Society’s Global Board, was a founding member of Soros’s “private foreign ministry,” the International Crisis Group, and is a member of World Economic Forum Global Agenda Council on Global Governance, in addition to serving as a Minister of State at the U.K. Foreign Office. In 2018, the British House of Lords in their report, “UK Foreign Policy in a Shifting World Order, called for Trump’s defeat by all means possible.

Not to be forgotten, Malloch-Brown was “the principal conduit between Britain and the candidate” Barack Obama during his first presidential campaign, “a relationship that has persisted,” Samantha Power told The Times of London in a Feb. 24, 2008 interview.

In her Fox appearance, Sidney Powell noted that the vote manipulation can come through a thumb drive inserted in the machine, “or uploading software over the internet, from Germany or Venezuela even — they can watch votes in real time, shift votes in real time.... They can have the machine not read the signature, or catalogue only the Biden votes.”

She said that many political leaders had complained over the years to the government about the corruption of the Smartmatic software, naming three Democrats — Carolyn Maloney, Elizabeth Warren, and Amy Klobuchar — with no response. “It makes me wonder if the CIA has used it for its own benefit in various places. Why Gina Haspel of the CIA is still there is beyond my comprehension. She should be fired immediately,” Powell stressed. She added that, “We are going to show the public exactly how rotten” the system has become.
