# Bombshell: New Evidence Of Election Fraud In NH As Dominion Machines Found To Have Taken 300 Votes Off EVERY Republican Candidate

 by **A.M. Smith** 14 days ago

Judicial Watch

OPEN

Results from a hand recount in New Hampshire appear to show more evidence that voting machines may have been used to skew votes towards Democrats.

It has been long suspected and claimed that Dominion voting machines were used to rig elections. The suspicion was further heightened after a revelation that a Dominion engineer had stated that he "made f\*\*king sure" Trump wouldn't win.

Of course, if this were the case, you would see evidence by conducting hand counts of the paper ballots then comparing those to the counts on the machines. If the machines were rigged you would see a discrepancy between the counts.

# End Illegal Immigration

## Judicial Watch

That discrepancy has been discovered in NH.

**A recent hand recount in the Rockingham District 7 NH House Race in Windham, New Hampshire, found that the Dominion-owned voting machines shorted EVERY REPUBLICAN by roughly 300 votes.**

Via Facebook

**The Dominion machine counted results were wrong for all 4 Republicans by almost exactly 300 votes.**

Granite Grok reported:

.....

“

The Town of Windham used Dominion machines to count paper ballots and upon a believable hand recount, it was confirmed each Republican was machine-cheated out of roughly 300 votes.

You would think this would have been solved by the Dominion machine company, the Secretary of State, the Elections Unit of the AG's Office, or the laughable Ballot Law Commission. (Kathy Sullivan, d (Term expires July 1, 2024)

Nope.

Just like every other state that used machines that alter ballot counts in favor of one political party over another – here we are.

.....

**Dominion Voting Systems owns the intellectual property of the AccuVote machines used in New Hampshire.**

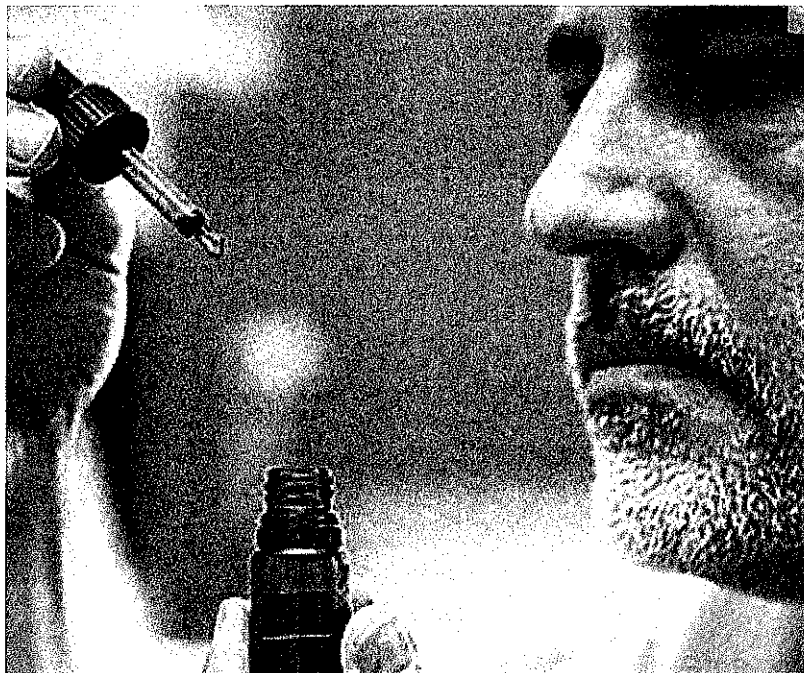

Patch.com reported:

“

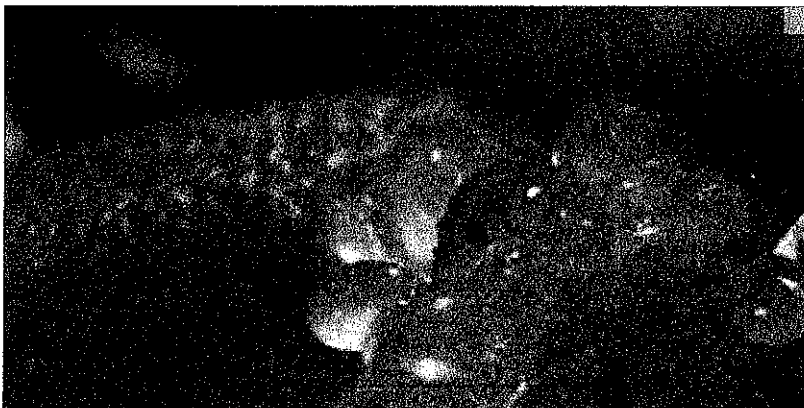

In New Hampshire, he noted, the AccuVote optical scanners used in all communities that have voting machines are an “older technology” and each moderator uses the device’s results tape, at the end of the night, to reveal the results, on a paper “Return of Votes” form. AccuVote devices have been used for more than a quarter of a century in the state and are the only devices approved by the Ballot Law Commission.

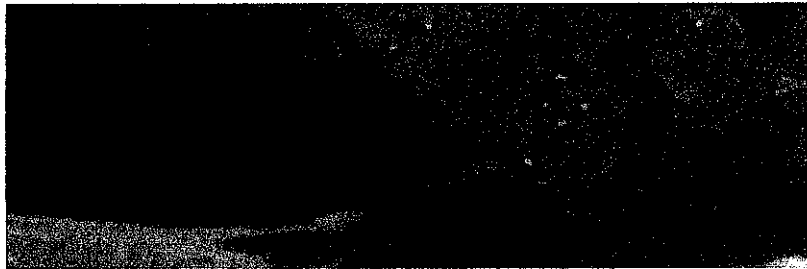

“The device was originally manufactured by Unisys, then by Global Elections Systems Inc., which are no longer in business,” Yen said. “The device used in New Hampshire is no longer being manufactured. Dominion (Voting Systems) owns the intellectual property of the AccuVote and its related election management system but does not manufacture the device.”

Does anyone with half a brain see the trend of massive voter fraud in this election??? If you believe that this election was fair then please enjoy the downfall of this country under the socialist communist demo-rats and their destruction of AMERICA under their DICTATORSHIP BS.

Rodzzz • 14 days ago

De-certify the election and throw Crooked Joe and his gang of thieves in jail.

Pat • 14 days ago

I'm no lawyer, but it seems that a class action suit could be filed against those individuals that knowingly called this fraudulent election, carried out this con job and defrauded so many people. Then again - liberalism always wins.

Such a state of affairs that our country has so many dis-honest people and they don't even care that they are part of such corruption. Biden sits at the white house under false pretense, he is not the legitimate president. Never will be.

Ronnie Allen • 14 days ago

Well one more piece of evidence for attorney Sidney Powell to use in her slander suit filed by dominion attorneys against her.

This past election should be a pause button moment for both political parties because dominion voting machines can be used to change Democrats votes to Republicans just as dominion voting machines did to change Republicans votes to Democrats.

Cancel all dominion voting machines for now and switch to paper ballots until we can find voting machines that don't change mine and your vote.

Wazza65 → Ronnie Allen • 14 days ago

As long as they are programmable, they can be used to change votes. This thing about "adjudicating votes" and changing them so that they can be "read by the machines" is what has opened the door to this excessive fraud. Yes, the law says "multiple people", but doesn't specify "different parties", hence illegally adjudicated votes were changed from Republican to Democrat by Democrat supporters working in all parts of the counting.

gideonrockwell • 14 days ago

It is as I have said all along. There was not just fraud in the Presidential Race, but the Congressional Race also. The theft of the 2020 Election Cycle by the Democrat Crime Organization was not just fraud. They colluded with the C.C.P. to pull this off and it was an act of cyber warfare. The real sedition lies with the Democrat Crime Organization and it is both sedition and treason.

Neo • 14 days ago

This is interesting but the evidence seems to show that the real plan was to replace normal real mail-in ballots with ballots for Biden. It explains the dropping vote counts as well as the unexpected outcome.

5 ^ | v • Reply • Share ›

Jimbo → Neo • 14 days ago

They freaking cheated the Republican Party. With every measure the can. Always have.

So, the votes have now been restored to the correct candidates, the State is recalling any candidates who did not win because of Dominion's fancy computer shenanigans [aka cheating] and those who rightfully won the seats will be sworn in before Valentine's Day. Right?

And in all the States where Dominion machines that Yen says are not their fault in being soooooooooo screwed up equally altered, removed, weighted differently, creatively counted non-existent voters including the dead and generally screwed the American people - yes, those States will immediately get to correcting the vote results and apologize for the crappy Chinese-made "computer glitches" also, right?

Rusty • 14 days ago

That's just the Tip of the Iceberg; the election should be rerun with outside honest foreign observers.

3 ^ | v • Reply • Share ›

Elaine Blackman → Rusty • 13 days ago

Do you think that their being foreign makes them honest? Dominion was set up in Italy, Germany, Canada, China, and who knows where else. If nothing else, the election was actually helped by foreign outsiders.

codycollie • 14 days ago

If the management and employees of Dominion were a Major Player in the Stealing of Our Elections for the Democrats, why haven't they been Brought to Justice?

So if Our Corrupted Government won't do it there are other ways! If we let anyone get away with Voter Fraud we might as well quit voting!

3 ^ | v • Reply • Share ›

got my licence → codycollie • 14 days ago

Either that or vote 20 plus times like the dems.

Question : can you umpire a Football (any code) or Hockey match after the game has been completed?

Obviously not.

It's the same with this (and the last mid term) election. You needed to have trusted Law Enforcement personnell literally looking over the shoulder of every worker in the election to make sure it was being done legally and to arregst and remove them and equipment on the spot when they break the Law and change votes or dump ballots after hours.
